**PETITION TO WITHDRAW HOLDING OF ABANDONMENT
PURSUANT TO 37 C.F.R. 1.181(a)**

Sir:

In response to the notice of abandonment mailed November 23, 2007, petition is hereby made to withdraw the holding of abandonment. The following information is tendered in support of the subject petition.

FACTUAL BACKGROUND

Exhibit A is a copy of the notice of abandonment, mailed November 23, 2007, alleging that applicants failed to respond to a Notification of Missing Requirements (Form PCT/DO/EO905), mailed 2/24/2006.

Exhibit B is a copy of the Notification of Missing Requirements, mailed February 24, 2006. This notification stated that the oath or declaration of the inventors was missing, and the

Docket No. 1368-8 PCT/US
Petition to Withdraw dated December 5, 2007

applicant must provide the sequence listing in computer readable form. The notification set a time period of two months within which to respond.

Exhibit C is a copy of the applicants' response to the Notification of Missing Requirements, mailed May 23, 2006. The response contained a combined declaration and power of attorney, a copy of the Notification of Missing Requirements, computer readable sequence (submitted on a 3.5" floppy disk), and a petition and fee for a one month extension of time. Accordingly, this response was timely submitted.

Exhibit D is a copy of a Notification of Defective Response (Form PCT/DO/EO/916), mailed March 13, 2007, alleging that the sequence listing in computer readable form was not submitted in compliance with 37 CFR 1.821(e). This notification provided for a non-extendable one month time limit within which to respond.

Exhibit E is a copy of Applicants Response to the Notification of Defective Response, timely mailed on April 12, 2007. The return postcard with the USPTO stamp confirming receipt is on the bottom of the first page. This response contained the sequence on floppy disk and a statement indicating that the sequence listing is identical to the sequence originally submitted and contains no new matter. A review of the record for this application in PAIR shows that this response was not entered into PAIR.

DISCUSSION

At the outset, it is not clear why the Office generated the Notification of Defective Response on March 13, 2007. It appears from our files that our response to the Notification of Missing Requirements, mailed May 23, 2006 was fully responsive.

Applicant: Pellegrini et al.
Application No. 10/542,255
Docket No. 1368-8 PCT/US
Petition to Withdraw dated December 5, 2007
Page 3

Regardless of the sufficiency of our response of May 23, 2006, when the office did mail the Notification of Defective Response of March 13, 2007, we again fully responded to the alleged deficiencies.

For some reason, however, our response to the Notification of Defective Response, mailed on April 12, 2007 was not entered into PAIR. This undoubtedly is the reason the office generated the notice of abandonment on November 23, 2007, since a review of the USPTO records seems to indicate that applicant failed to respond to the March 13, 2007 notice.

As shown by the copy of the attached postcard, applicants' response to the Notification of Defective Response, mailed with a certificate of mailing on April 12, 2007, was received the USPTO on April 16, 2007. Accordingly, applicants submit that the response was timely made and its absence from the USPTO records is a mistake the USPTO.

CONCLUSION

Applicants respectfully request that the applicants' response to the Notification of Defective Response, mailed with a certificate of mailing on April 12, 2007, be properly entered in the USPTO records and the PAIR system.

Applicants further respectfully request that the Office review the file in this case as properly constructed, and withdraw the Notification of Abandonment issued November 23, 2007. The reason the notice should be withdrawn is that applicants response of April 12, 2007 to the Notification of Defective Response of March 13, 2007 was not entered into the USPTO records in this case, through no fault of the applicant. Applicant's response addresses all alleged deficiencies, so there is no reason to maintain the Notification of Withdrawal.

Accordingly, Applicants respectfully submit that this case is in condition for examination.
